*** Totals do not match due to the option to select more than one.					

Each term, IHCC "captures" data at a state determined count day. The numbers of students are then reported to the Iowa Department of Education as part of our MIS Reporting requirements. Using that capture data, the Institutional Research Office prepares an institution profile and a profile for each of its programs. The programs use this information as part of their Program Review which is on a three-year rotation. The demographic information provided here are the most widely asked for pieces of data concerning student demographics.
