

Little Engineers! All about Ramps
and Pathways

10 Steps to Guide Implementation

1. Teachers need to be familiar with the materials to understand how to grow learning
2. Inspire children's interest by having an introduction
3. Create proper classroom set-ups that inspire
4. All children need to try out their ideas
5. Observe to assess and understand
6. Intervene with questions and comments to encourage thinking
7. Do not pursue if a child does not respond to intervention
8. Support children's work
9. Integration in the curriculum
10. Encourage social interaction
