

(ATI TEAS 7) Fact Sheet for Students

Schedule online at: <https://ihcc.edu/schedulemytest>

All students accepted to the Nursing program must achieve a composite score of 60% for all four sections of the ATI TEAS. Students will have only 3 attempts within a year of the first attempt to take the TEAS. Students **MUST** take the ATI TEAS with a live proctor. Testing completed via Webcam will **NOT** be accepted. Accuplacer, ACT, or SAT are no longer required to enter the nursing program beginning Fall 2025.

Did you know that 40% of students take the TEAS test more than once? The biggest mistake students make on the TEAS is not taking the time to review and study. ATI recommends at least 6 weeks of preparation prior to taking the ATI TEAS Exam. Don't just take our word for it! Here's what some recent students said upon finishing the ATI TEAS. <https://youtu.be/fYhMyrVgMeU>

If you do not have an IHCC student ID number, then enter your social security number without dashes (999999999). You must do this before you can test.

- Plan to arrive no less than ½ hour prior to scheduled test time to allow time to check in, and check sign in credentials to ATI. The test is timed and will take approximately 3 ½ hours to complete.

After the test

- At the end of the test, you will print 2 copies of the score report. Keep one and give the other to the test proctor.
- How is the TEAS test graded? Your TEAS score is calculated by a system called equating, which means some questions are worth more points than other questions. You will not know which questions have more weight, but there are easier and harder questions that make up the entire test.
- Scores will be entered in your student record and communicated to the Indian Hills Admissions Specialist for Nursing.

Interpreting your scores

On page 1 of your **Individual Performance Profile** see your **Adjusted Individual Scores** in each of the four sub-scale areas: See page 2 of your report for a list of Topics to Review. Refer to the Table of Contents in the *Study Manual* for the ATI TEAS to locate and review information in the areas you missed and find direct references of where to go in the Study Guide to remediate. See page 3 of your report for further explanation of scores.

Answer options are:

1. Multiple-Choice Item Types: questions that have four answer options with only one option as the correct answer. In addition to text, some multiple-choice items include charts, exhibits, and graphics.
2. Alternate Item Types: These refer to questions that are not your standard multiple-choice, single answer questions. Currently, there are four different alternate item type questions on the ATI TEAS Version 7 exam:
 - Multiple Select items: Students will be presented with a list of four or more possible answers to a question and more than 1 may be correct. There will be a note on these question types to "Select all that Apply." To answer the question correctly, the student must select all correct answers. If all correct answers are not selected, then the question is incorrect. No partial credit is given.
 - Supply Answer items: This question type requires students to provide the answer to the question or "fill in the blank" without a set of options. Answers may be text or numerical values.
 - Hot Spot items: These questions include an image with two to five clickable areas. Students are required to click on the area of the image identified as the correct response.
 - Ordered Response items: These questions require students to place a set of response options in the correct order. Students drag between four and six response options from a box on the left to an empty box on the right. The question is answered correctly only if the student places all correct options in the correct order within the box on the right. If an option is out of order, then the question is incorrect. No partial credit will be given
